Kindergarten Incursion: Kindifarm Mobile Animal Farm

Dear Parents,

On Monday 7th September, Kindergarten will be participating in an incursion led by Kindifarm Mobile Animal Farm. The cost of the incursion is \$10.00. The excursion supports the integrated unit of work the students are studying this term. We have been learning about the needs of farm animals as living things in Science and the features of farm environments in Geography. For Visual Arts, farms have been used as a source of inspiration for artworks and we have been writing factual sentences about farm animals based on information books we have read. This incursion will provide important hands-on activities to complement this unit of work.

During the incursion, each class will be involved in a session for one hour. The experiences offered include:

- Farmyard nursery petting and feeding
- Bottle feeding a calf
- Comparing different farm animals
- Holding baby chicks, rabbits and/or ducklings
- A shearing and whip cracking demonstration

To make this day a special one, students are required to **dress as a farmer**. Please ensure you have a **sun hat, wear covered running shoes like sneakers and shoulders must be covered**.

This is a normal school day, so recess, lunch and water bottles are required as usual. Lunch orders will be available if required. The incursion will occur regardless of the weather as the farm can be moved under cover. COVID-19 safe practices will be followed throughout the incursion, including hand washing and sanitising.

Please complete the permission slip below and return it to the class teacher by Wednesday 2nd September 2020. **Online payments accepted only and late payments will not be permitted.**
